## **DETAILED ACTION**

### ***Election/Restrictions***

#### ***Election of Species***

In the instant application, applicants claim a pharmaceutical composition comprising a vehicle that comprises of an antibacterial substance in an amphipathic oil, microcrystalline wax and a pharmaceutically acceptable non-aqueous carrier.

Claims 5-15 are generic to a plurality of disclosed patentably distinct species comprising numerous antibacterial substances. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species of antibacterial substance, even though this requirement is traversed.

Claims 21-25 are generic to a plurality of disclosed patentably distinct species comprising several amphipathic oil substances. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species of amphipathic oil substance, even though this requirement is traversed.

Claims 26, 27 and 29 are generic to a plurality of disclosed patentably distinct species comprising several non-aqueous carrier substances. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species of non-aqueous carrier substance, even though this requirement is traversed.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.
